

DJ Said Reviews

Great job!! Throughout the night we had guests telling us the DJ was doing an amazing job keeping people out on the dance floor dancing the night away. A week has gone by since our wedding and we still have guests complimenting us on the music, and that they had a fun night dancing!! We were able to create a playlist of music that we wanted played, and based off the songs we requested Said was able to fill in the rest to keep our guests dancing. Overall Said did a great job, very professional, and he even called us the week of the wedding to confirm the important details for our special night! Highly recommend Said as a DJ!!

Dj Said was FANTASTIC! My Fiancé (At the time) and i were looking for a DJ SUPER LAST MINUTE! (like 2 weeks before the wedding) despite our last minute situation, Said didn't seem bothered or stressed, he made it happen like it was not inconvenient at all, and he was a fantastic DJ who knew how to keep the party going and was super personable and so enjoyable to work with! He made all of our Wedding ceremony and Dance party dreams come true! He is truly a DJ that is FOR his clients, and does everything he can to accommodate them! Highly recommend! Thank you for coming in clutch DJ Said!

Best DJ in Milwaukee!!! Super talented and super cool guy. He really did an amazing job at my party. I definitely recommend DJ Said and I can't wait for him to DJ my next event

- **Bruce S**

Best DJ. All of our needs were met, he was super responsive and always accommodating. We held a huge wedding and got so many compliments on our DJ, our guests loved him as much as we did. We couldn't recommend him more, if you need a DJ for any event Said would be your best bet.

We just had a wonderful wedding with Said as our DJ. The dance floor was always full and everyone had a great time! Based on past wedding experiences as guests, we were worried about not enough song variety - Said followed through with his promise to read the crowd and engage all the guests. Thank you for your part in making our day a memorable success!

DJ Said DJ'd our wedding this summer, an African and American blended wedding, and he was absolutely fantastic! Excellent job of blending a variety of musical genres, styles, beats, and adapting to the diverse crowd to keep the energy up and people dancing all night. Said was very professional, attentive to detail, receptive and responsive to our needs/requests, and overall was great to work with. You can tell he genuinely loves what he's doing. Would highly recommend, and if we are to ever host an event again and need a DJ we would not look any further than Said.

We recently had our wedding in Milwaukee and I hired Said as our DJ. I chose him because his profile said he could effortlessly mix Shania Twain into the Ying Yang Twins. I love many different genres of music and I feel that music can make or break a party. He definitely delivered! Our reception was at a local bar and restaurant and when we used the restroom strangers were complimenting our party's music! People nearby were dancing and we even had a few wedding crashers! One of my friends said my wedding was the most lit wedding he has ever been to and I believe Said deserves all the credit! We even extended the music by one more hour. What a blast! Even a day later I was still getting compliments on how great the music was! I would definitely use him again!

Music and atmosphere is an integral part of any event; our DJ, Said was super dependable, on-time, professional and had personality that kept the crowd dancing all night. Leading up the event he was communicative, listened to our needs and was flexible enough to accommodate to changes on the fly. The venue's in-house sound system ended up having a minor issue, so Said went above and beyond by having his equipment brought in for backup and saved the day. Our guests had a great time, we would absolutely recommend Said to anyone!

My wife and I were adamant our DJ had to be able to read the crowd and cater to the group's enjoyment. Said exceeded our expectations and had our whole wedding party and all of our guests dancing the whole night. There wasn't a single song played where there wasn't anyone dancing on the floor. We really appreciated his talents and attention to the crowd. Said was friendly and extremely accommodating to our guests. We would definitely recommend him.

I would recommend Said highly. He was a skilled DJ and paid attention to the crowd, adjusting the music to keep the dance floor full the whole night. He was also very easy to contact and responsive to my questions before the event. I would definitely hire him again.
